

SUHAIL POOKATTIRY

PROJECT ENGINEER

Mechanical Engineer with 7 years of experience in project management, marine and industrial maintenance, and facilities management. Specialized in marine coating and ship repair works for large and small vessels, as well as shutdown projects in major industrial plants. Strong background in planning and executing projects, coordinating subcontractors, and managing costs from estimation to final handover. Proven ability to deliver safe, high-quality work on time and within budget while maintaining strong client and supplier relationships. Anna University graduate with a hands-on, results-driven approach.

PROFESSIONAL EXPERIENCE

Hills And Fort Aquajetting LLC

Dec 2021 - Present

Project Engineer

Hills & Fort Aquajetting LLC – a leading UAE specialist for shutdown and maintenance projects, including hydroblasting, sandblasting, retro jetting, hydro milling, abrasive cold cutting, and hydro demolishing. Successfully executed projects and repair jobs across ship docking yards, oil rigs, power generation plants, onshore and offshore refineries, and major shipbuilding and repair companies. Exclusive dealer of high-pressure and ultra-high-pressure pumps and accessories from Aquadyne, Flow, and APS, all based in the United States.

- **Lead marine painting and surface preparation works** for large and small vessels at Drydocks World Dubai, Dubai Maritime City, other ports and anchorages, including Bulk carriers, Tankers, Ro-Ro vessels, Barges, Dredgers, offshore units FPSO, FSO etc and support vessels.
- **Manage subcontractors and in-house teams** for blasting, coating activities and rentals, ensuring work is executed safely, on schedule and as per client quality standards.
- **Handle estimation and costing** for ship repair and marine coating jobs from enquiry stage to final invoice - including site survey, MTO preparation, manpower and equipment productivity, paint consumption, subcontractor quotes and final cost reporting.
- **Prepare technical and commercial offers** for ship repair/marine painting projects, coordinate with Drydocks World estimators and planners, and support negotiations on scope, rates and variations.
- **Coordinate and execute shutdown and maintenance projects** in plants such as DEWA, EGA and other industrial facilities, covering structural steel, tanks, pipelines and equipment under tight shutdown windows.
- **Maintain strong client relationships** with Drydocks World, shipowners, plant maintenance teams and main contractors by providing regular progress updates, solving site issues quickly and ensuring punch list closure.
- **Manage local and international procurement** of paints, abrasives, equipment and consumables, including RFQs, bid evaluations and vendor selection, ensuring cost-effective sourcing, timely delivery and compliance with technical specifications.
- **Prepare detailed bid tabulations and support commercial negotiations** with clients, subcontractors and suppliers on scope, pricing and variations, securing competitive terms while protecting project margins and company interests.
- **Develop and maintain supplier and vendor networks** for ensuring competitive pricing, timely delivery and technical support from OEMs.
- **Monitor job costing and budget control** on a daily basis, tracking actual vs. estimated costs for manpower, equipment, materials and subcontractors, and recommending corrective actions to protect project margins.
- **Led coating inspection and QA/QC activities**, DFT control, adherence to project specifications, paint manufacturer data sheets and class/owner requirements.
- **Coordinate with planning, HSE and QA/QC teams** to align work sequences, risk assessments, method statements and inspection points for safe and efficient execution.
- **Prepare daily/weekly progress reports**, resource planning sheets, cost tracking reports and final job summaries for internal management and client review.

Charisma Ship Maintenance LLC is a Dubai-based marine and industrial maintenance service provider, specializing in advanced surface-tolerant and glass flake epoxy coating systems. As the sole authorized distributor of Chemco International coatings in the UAE, the company delivers turnkey corrosion protection solutions for marine vessels and oil & gas assets worldwide.

- **Supervised mechanical and coating activities** during refinery shutdowns, including installation, inspection, and maintenance of pumps, valves, piping systems, and structural supports.
- **Coordinated plant maintenance works** for Insulation, firefighting lines, chilled water systems, and compressed air piping.
- **Managed construction and refurbishment** of mechanical systems in critical areas such as pump rooms, storage tanks, and mechanical skids.
- **Implemented and monitored preventive and predictive maintenance** plans for plant equipment to minimize unplanned downtime and enhance operational efficiency.
- Conducted site surveys, identified snags, and performed root cause analysis for recurring mechanical issues, corrosion issues, **implementing corrective actions** accordingly.
- Supported contracting and procurement activities by **preparing BOQs**, obtaining quotations, evaluating vendors, and assisting in budgeting and cost control for shutdown and maintenance projects.
